STEEL-LINE

Closed Partitions

STEEL allows you to close off office spaces and literally create closed-off workspaces that meet very high standards in terms of sound insulation and take a step towards energy label C for office buildings. The closed partition consists of steel panels that are seamlessly fixed. By combining a glass partition from the Plan Effect collection with the STEEL-LINE partitioning system, you create more privacy and an office environment with a timeless look. 'STEEL' the show! 'STEEL' the show!
